

Advanced Visuals in PowerBI

QUESTION 1

What is the difference between a Basic Filter, Advanced Filter, and a Slicer in Power BI?

ANSWER

1. Basic Filter

A simple filtering option where you select values from a list.

shows all available values (checkbox list)

You just tick/untick what you want

Example:

Filter Region = East, West

2. Advanced Filter

A condition-based filter where you define rules.

is greater than

is less than

contains

between

Example:

Sales > 5000

		Name contains "A"				
		3 . Slicer				
		A visual filter placed on the report canvas (interactive UI element)				
		Users can click buttons, dropdowns, or sliders				
		Filters multiple visuals at once				
		Example:				
		A slicer for Year = 2023				
		Click → All charts update instantly				

QUESTION

Using the Sales dataset, apply a Basic Filter to display only the sales data for the year 2023.

ANSWER

USING THE DIFFERENT CHART TO SHOWING THE SALES OF YEAR 2023

QUESTION 3

Create a Pie Chart of Sales by Product and add Slicer that allows users to filter the dataset by Region.

ANSWER

		Example:					
		Filter: Country = India					
		Every page + every visual is filtered					

QUESTION

Apply a Report-Level Filter so that all visuals in the Power BI report display sales only from India.

		Example:							
		Sales dropped → Drill → Region → City → Product							
		Find exact problem							

QUESTION 7

Using the dataset, create a hierarchy drill-down from
Country → Region → Product Category to analyze sales at different levels

ANSWER

NO -1 BY COUNTRY

NO -2 BY REGION

NO -3 BY PRODUCT CATEGORY

QUESTION 8

Implement Drill-Through so that selecting a Product navigates to a detailed report page showing regionwise sales.

ANSWER

I does not have sign in to power bi , please help that how i create chart

QUESTION 9

Add a Slicer for Product Category and observe how it interacts with the drill-down hierarchy

ANSWER

QUESTION 10		Explain the difference between Drill-Down and Drill-Through in Power BI using a real-world example.					
ANSWER		Drill-Down					
		You move from summary to detailed data within the same chart					
		IMAGINE SALES TABLE					
		CountrySales				RegionSales	
		India	₹50,000	You click on India		North	₹20,000
		USA	₹80,000			South	₹30,000
						Click North → see Product Category	
		Drill-Through					
		You navigate to a different report page with detailed information based on your selection					
		Product = Laptop		Right-click → Drill Through → Product Details Page			
			NOW NEW PAGE SHOWING		Region-wise sales		
					Customer details		
					Order history		

QUESTION 11

Use the Drill-Down feature to analyze sales trends from Year → Quarter → Month → Day.

ANSWER

QUESTION 12

Apply a Measure-Based Filter to display only those products where total sales exceed ₹50,000.

Hint: Create a Total Sales measure and apply the filter using the measure, not the Sales column

ANSWER

QUESTION 13	What is the “Keep All Filters” option in Drill-Through? How does it affect user interaction		
ANSWER	In Power BI, Drill-Through lets users right-click on a data point and navigate to a detailed report page. The “Keep All Filters” option controls whether all existing filters are passed to the drill-through page. 1. When “Keep All Filters” = ON Drill-through field (e.g., Product) All other filters (like Region, Date, Category, Slicers)		
RESULT	The drill-through page shows highly filtered, context-specific data		
	2 . When “Keep All Filters” = OFF Only the Drill-through field		
RESULT	The drill-through page ignores other filters		
	How It Affects User Interaction		
	With “Keep All Filters” ON	With “Keep All Filters” OFF	
	More precise analysis	More general analysis	
	Users see exact context they selected	Users can explore broader data	
	Best for deep insights & decision making	Useful when you want independent detail view	

		ON "Show me details of exactly what I selected"							
		OFF "Show me full details of this item, ignore other filters"							

QUESTION 14

Create a custom Drill-Through page where selecting a Region shows a detailed view of sales trends over time.

ANSWER

SORRY ,
